MeVis weathered year of crisis well

On April 23, 2010 MeVis Medical Solutions AG released FY 2009 figures with sales being almost exactly in line with expectations. The EBIT was slightly above and group earnings slightly below expectations owing to higher financial expenses and taxes. The high percentage deviations in the EPS can be put down to basis effects.

MeVis Medical Solutions - Q4 2009

Figures in EUR m	Q4/09	Q4/09e	Q4/08	yoY	2009	2009e	2008	yoY
Sales	3.6	3.6	2.9	23.6%	13.9	13.9	10.8	27.9%

EBIT margin	0.9 25.6%	0.6 2.5%	-0.9 -31.3%	-	1.6 11.8%	1.3 5.7%	0.7 6.1%	145.6%
EPS in EUR	0.07	0.28	0.42	-83.3%	0.23	0.44	1.21	-81.0%

Sources: MeVis Medical Solutions (historical data), SES Research (estimates)

However, sales and earnings growth must be put into perspective, as the business activities with industrial partner Hologic were fully consolidated since November 1, 2008. Sales would have remained roughly flat without this consolidation, despite the market introduction of important breast care products. The reported increase after consolidation in the Digital Mammography segment now adds up to 46% now (share in total sales: 73%). Sales in the "Other Diagnostics" segment, which was characterised by a high number of product launches in the fields of neurology, prostate and pulmonary diagnostics, remained stable (share in total sales: 27%). **The figures can be considered as robust from an operating point of view, as the total market for medical diagnostics declined in 2009.** MeVis was able to report these figures despite a declining total market, clearly speaks for the company's products and orientation. MeVis managed to significantly differentiate from the general development of the OEM. The **functional coverage of different application fields** has also materially increased through the introduction of the new products and supports this development.

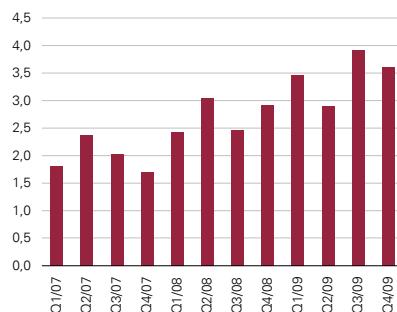

The company is well positioned for a market recovery in 2010 and the management guides for a significant sales increase as already anticipated in the SES estimates. Earnings are also expected to significantly go up. This development is driven by a considerably expanded product portfolio and a visible improvement of the market environment. **The estimates remain unchanged.**

The PT remains EUR 30. Buy rating reiterated.

Company background

The origin of MeVis Medical Solutions AG, founded in 1998, goes back to the year 1992, when CeVis (Center for Complex Systems and Visualization) was founded at the University of Bremen. MeVis Medical Solutions AG was created with the goal of developing and marketing commercially successful disease-related products on the basis of the scientific successes in the field of research. Since its founding, MeVis has been active in the field of computer assistance of imaging-based, medical diagnostics and therapy.

MeVis has managed to become one of the world's leading suppliers of software solutions for the image-based medicine. This development is based much on the success in the field of digital mammography. Together with Hologic and Siemens, MeVis's solutions dominate this segment today. In addition, MeVis has a broad range of products at its disposal, some of which are already on the market or in the final stage of development.

Competitive quality

MeVis is pursuing a strategy of early market occupation in new fields of medical imaging technology. At the focus here are products for mass markets (such as breast cancer screening or computer-aided neurosurgery). MeVis features the ability to occupy market niches very early on compared to its rivals. This strategy is based on a combination of important factors:

- Excellence of employees: The scientific excellence of the employee team surrounding Prof. Peitgen (founder of the MeVis Group) and Dr. Carl J. G. Everts forms the basis for the firstclass expertise of the company. MeVis's employees include top researchers in the field of computer-aided medicine.
- Global partner network with R&D centres and clinics: MeVis supports long-term and interdisciplinary co-operatons with more than 100 clinics and leading research centres in Germany, Europe, the US and Asia. The high market proximity of MeVis is again and again the root of product innovation.
- Partnerships with leading equipment manufacturers: MeVis supports partnerships with the globally leading medical engineering OEMs. The following examples are mentioned here: together with Siemens, a joint venture has been undertaken (MeVis Breastcare) through which the leading products in the field of digital mammography can be marketed. The most important supplier of digital mammogram devices (Hologic) uses exclusively MeVis software for its digital mammography workstations. There is also a co-operation with Invivo/Philips in the field of MRI and biopsy.

The major aspect of the strategy and uniqueness of MeVis lie in its close co-operation with OEMs and its ability to offer these manufacturers marketable, technological products early on. Billion EUR groups such as Siemens, Hologic and Invivo/Philips have already impressively shown that this approach has stood the test of time.

Source: SES Research

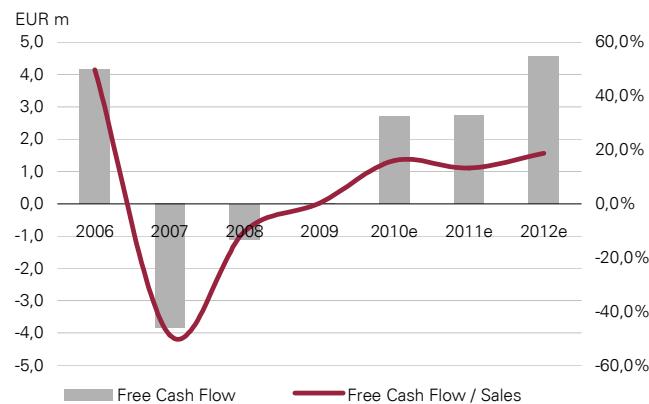

CAPEX and Cash Flow - MeVis Medical Solutions

Sources: MeVis Medical Solutions (historical data), SES Research (forecasts)

- CAPEX is increasing massively due to considerable product developments
- Maintenance investments are of subordinate significance at software companies

Free Cash Flow Generation - MeVis Medical Solutions

Sources: MeVis Medical Solutions (historical data), SES Research (forecasts)

- Cash flow is highly impacted by investments in new products
- Return to growth path expected in the long term

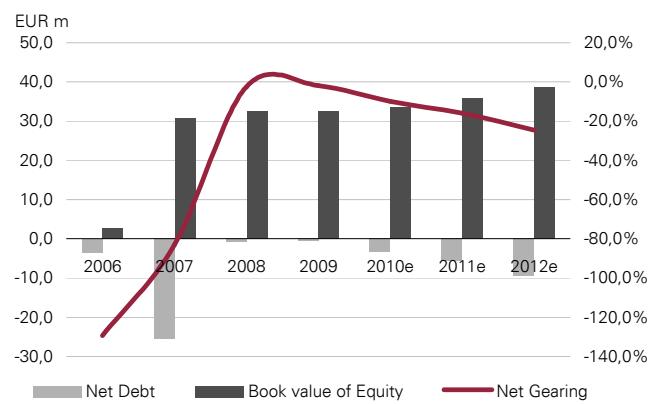

Operating Leverage - MeVis Medical Solutions

Sources: MeVis Medical Solutions (historical data), SES Research (forecasts)

- Operating leverage and operating expenses/sales are strongly deviating as costs of MeVis are barely changing

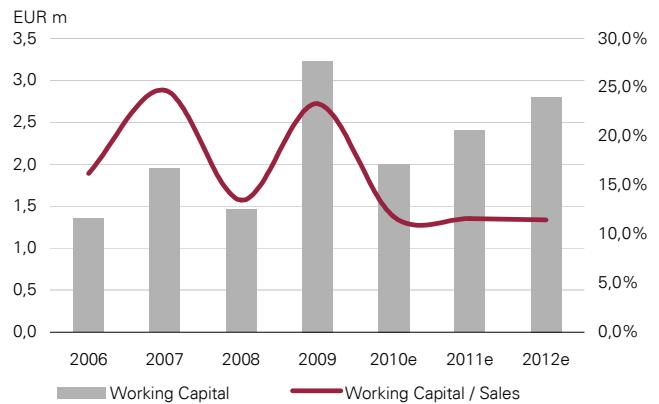

Balance Sheet Quality - MeVis Medical Solutions

Sources: MeVis Medical Solutions (historical data), SES Research (forecasts)

- IPO led to considerable inflow of cash in 2007
- The equity book value and the entire balance sheet quality also improved considerably

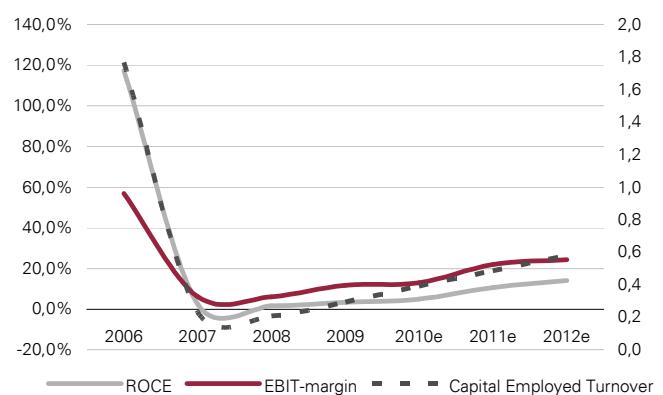

Working Capital - MeVis Medical Solutions

Sources: MeVis Medical Solutions (historical data), SES Research (forecasts)

- Stabilisation of Working Capital expected at approx. 15
- Increase of Working Capital within the scope of business expansion

ROCE Development - MeVis Medical Solutions

Sources: MeVis Medical Solutions (historical data), SES Research (forecasts)

- ROCE and EBIT margin have little significance before the IPO due to base effects
- Increase/Scaling of EBIT margin expected in the long term

Disclosure according to Section 34b of the German Securities Trading Act and FinAnV

Section 34 b of the German Securities Trading Act in combination with the FinAnV requires an enterprise preparing a securities analysis to point out possible conflicts of interest with respect to the company that is the subject of the analysis. In this connection, we point out that:

- M.M.Warburg & CO KGaA is serving as a liquidity provider for securities of this company on the basis of an existing designated sponsorship contract.
- M.M.Warburg & CO KGaA or SES Research GmbH is party to an agreement with this company relating to the production of research recommendations.
- M.M.Warburg & CO KGaA und damit verbundene Unternehmen handeln regelmäßig mit Finanzinstrumenten dieses Unternehmens oder mit Derivaten dieser Instrumente.

This report has been made accessible to the company analysed and was modified thereafter

The valuation underlying the rating of the equity security analysed in this report is based on generally accepted and widely used methods of fundamental valuation, such as DCF model, Peer group comparison and – where applicable – a Sum-of-the-parts model.

M.M.Warburg & CO KGaA and SES Research GmbH have set up effective organisational and administrative arrangements to prevent and avoid possible conflicts of interest and, where applicable, to disclose them.

Valuations, ratings and target prices for the companies analysed by M.M.Warburg & CO KGaA and SES Research GmbH are subject to constant reviews and may therefore change, if any of the fundamental factors underlying these items do change.

All share prices given in this equity analysis are closing prices, except where stated otherwise.

Neither M.M.Warburg & CO KGaA's analysts nor SES Research GmbH's analysts do receive any payments directly or indirectly from any affiliates' investment banking activity.

M.M.Warburg & CO KGaA and SES Research GmbH are under supervision of the BaFin – German Federal Financial Supervisory Authority.

Investment recommendation: expected direction of the share price development for equity security up to the given Target price in the opinion of the analyst who covers the issue.

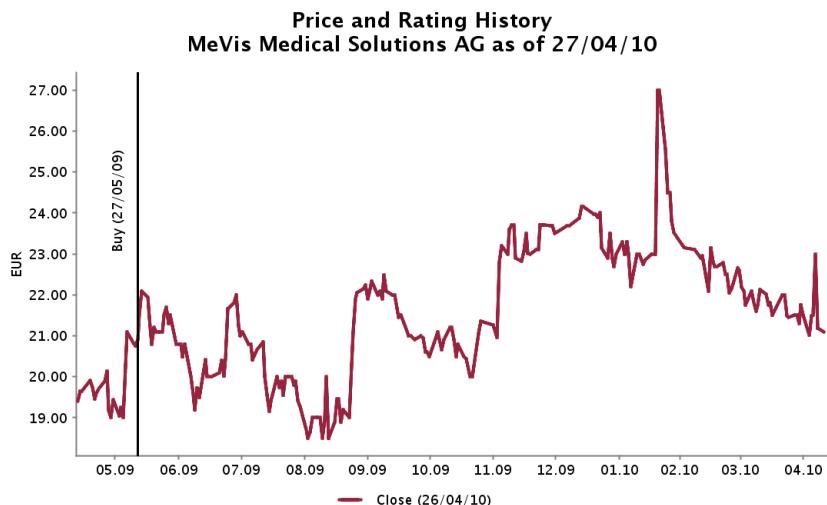

- B **Buy:** The price of the analysed equity security is expected to rise over the next 12 months.
- H **Hold:** The price of the analysed equity security is expected to remain mostly flat over the next 12 months.
- S **Sell:** The price of the analysed equity security is expected to fall over the next 12 months.
- "-" **Rating suspended:** The available information does not currently permit an evaluation of the company.
