MeVis Medical Solutions AG: Raising forecast for the current fiscal year

Bremen, December 1, 2014 – MeVis Medical Solutions AG [ISIN: DE000A0LBFE4], a leading provider of medical imaging software, raises its forecast for the present fiscal year due to the current business development:

- For 2014 revenues are now expected to remain stable at between € 12.5 and 13.0 million (previous forecast: slight decline in revenues to between € 12.0 and 12.5 million).
- For the EBIT (earnings before interest and taxes), a slight decrease over the previous year continues to be expected, now at € 3.5 to 4.0 million (previous forecast: EBIT between € 3.0 and 3.5 million).
- For the end of 2014 another increase in liquidity is expected to now € 16.5 to 17.5 million due to a continued positive cash flow (previous forecast: € 15.0 to 16.0 million).

MeVis Medical Solutions AG was founded in 1997 and is one of the world's leading independent developer and provider of medical imaging software with focus on dedicated, disease-oriented clinical applications. MeVis AG has been listed on the Frankfurt Stock Exchange in the Prime Standard segment of the Regulated Market since November 16, 2007.

Over the past few years, there has been an enormous increase in the complexity and volume of medical imaging data derived from diagnostic imaging processes such as digital mammography, computed tomography (CT), magnetic resonance imaging (MRI), and ultrasound (US). MeVis' products analyze and process this data in such a way as to provide medical professionals with crucial information for early detection, diagnosis and intervention in the areas of cancer and lung diseases as well as neurological disorders. The Company develops its software solutions in close consultation with world's leading medical experts and original equipment manufacturers (OEM) in the medical technology sector and primarily markets this software via these partnerships.
