MeVis Medical Solutions AG: Raising forecast for the current fiscal year

Bremen, August 2, 2016 – MeVis Medical Solutions AG [ISIN: DE000A0LBFE4], a leading provider of medical imaging software, raises its forecast for the present fiscal year due to the positive performance of the Digital Mammography segment:

- For the short fiscal year 2016 (1 January to 30 September), revenues of € 11.5 million to € 12.0 million are now expected, corresponding to a stable development of sales (previous forecast for calendar year 2016: decline to € 14.5 million to € 15.0 million).
- For the short fiscal year 2016 (1 January to 30 September) an increase in the EBIT (earnings before interest and taxes) is expected to € 3.5 million to € 4.0 million (previous forecast for calendar year 2016: decline to € 2.5 million to € 3.0 million).

On June 7, 2016 the Annual General Meeting approved a change in the fiscal year of MeVis Medical Solutions AG. In future the fiscal years of MeVis Medical Solutions AG begin accordingly on 1 October and end on 30 September of the following year. Up until then the fiscal year corresponded to the calendar year. The period from 1 January 2016 until the 30 September 2016 represents a short fiscal year.

***MeVis Medical Solutions AG** was founded in 1997 and is one of the world's leading independent developer and provider of medical imaging software with focus on dedicated, disease-oriented clinical applications. MeVis AG has been listed on the Frankfurt Stock Exchange in the Prime Standard segment of the Regulated Market since November 16, 2007.*

Over the past few years, there has been an enormous increase in the complexity and volume of medical imaging data derived from diagnostic imaging processes such as digital mammography, computed tomography (CT), magnetic resonance imaging (MRI), and ultrasound (US). MeVis' products analyze and process this data in such a way as to provide medical professionals with crucial information for early detection, diagnosis and intervention in the areas of cancer and lung diseases as well as neurological disorders. The Company develops its software solutions in close consultation with world's leading medical experts and original equipment manufacturers (OEM) in the medical technology sector and primarily markets this software via these partnerships.
