# Lung Diagnostic Software Support

- **Veolity – a tool for lung cancer screening with Peter Bernholt, MeVis Medical Solutions AG**

This online seminar explains how to optimize your lung cancer screening reading workflow with MeVis' software package Veolity Lung Screening.

SUN, Nov. 29, 2020	12:30 PM - 12:45 PM (CT)
MON, Nov. 30, 2020	12:30 PM - 12:45 PM (CT)
TUES, Dec. 1, 2020	12:30 PM - 12:45 PM (CT)
WED, Dec. 2, 2020	12:30 PM - 12:45 PM (CT)
THUR, Dec. 3, 2020	12:30 PM - 12:45 PM (CT)

- **Lung-RADS 1.1: Are you prepared for volumetric nodule measurements? With Peter Bernholt, MeVis Medical Solutions AG**

This online seminar explains the updates for Lung-RADS 1.1 and how to optimize your lung cancer screening reading workflow with MeVis' software package Veolity Lung Screening.

SUN, Nov. 29, 2020	01:15 PM - 01:30 PM (CT)
MON, Nov. 30, 2020	01:15 PM - 01:30 PM (CT)
TUES, Dec. 1, 2020	01:15 PM - 01:30 PM (CT)
WED, Dec. 2, 2020	01:15 PM - 01:30 PM (CT)
THUR, Dec. 3, 2020	01:15 PM - 01:30 PM (CT)

# DR and Fluoroscopy Acquisition Software

- **Nexus DRF™ multi-purpose digital imaging system  
with Jay Tracy, Varex Imaging Corporation**

Nexus DRF combines R&F and DR capabilities into one imaging platform. Nexus DRF supports digital fluoroscopy, digital radiography, and angiographic modalities as a full in-room system utilizing Varex Imaging's state-of-the-art flat panel detectors.

SUN, Nov. 29, 2020	03:00 PM - 03:15 PM (CT)
MON, Nov. 30, 2020	09:00 AM - 09:15 AM (CT)
TUES, Dec. 1, 2020	03:00 PM - 03:15 PM (CT)
WED, Dec. 2, 2020	09:00 AM - 09:15 AM (CT)
THUR, Dec. 3, 2020	03:00 PM - 03:15 PM (CT)

- **Nexus DR™ digital imaging system  
with Jay Tracy, Varex Imaging Corporation**

The Varex Imaging Nexus DR software is an advanced digital imaging acquisition system designed to automate patient workflow. It is a cost-effective solution which includes advanced image processing algorithms for optimal image quality.

SUN, Nov. 29, 2020	09:00 AM - 09:15 AM (CT)
MON, Nov. 30, 2020	03:00 PM - 03:15 PM (CT)
TUES, Dec. 1, 2020	09:00 AM - 09:15 AM (CT)
WED, Dec. 2, 2020	03:00 PM - 03:15 PM (CT)
THUR, Dec. 3, 2020	09:00 AM - 09:15 AM (CT)

# Liver Surgery Planning Software Support

- **Are you prepared for delivering 3D visualizations for the living donor liver transplantation program?**

**with Ragnar Bade, MeVis Medical Solutions AG**

- CT and MRI acquisition
- 3D visualization and volume information
- Individual donation scenarios (right lobe and left lobe grafts with and w/o MHV; mono segment grafts)
- Graft to recipient bodyweight and standard liver volume (STLV), ratio, and more

with MeVis Liver Suite and MeVis Distant Services

SUN, Nov. 29, 2020	09:45 AM - 10:00 AM (CT)
MON, Nov. 30, 2020	10:30 AM - 10:45 AM (CT)
TUES, Dec. 1, 2020	09:45 AM - 10:00 AM (CT)
WED, Dec. 2, 2020	10:30 AM - 10:45 AM (CT)
THUR, Dec. 3, 2020	09:45 AM - 10:00 AM (CT)

- **3D visualizations for liver surgery – what surgeons are asking for with Ragnar Bade, MeVis Medical Solutions AG**

- Liver volume and tumor burden
- Liver vessels: hepatic veins, portal veins, hepatic arteries, bile ducts
- Tumors, tumor safety margins, vessels and vessel territories around tumors
- 3D visualizations and virtual resection (liver lobe, liver segment, and atypical resections)

with MeVis Liver Suite and MeVis Distant Services

SUN, Nov. 29, 2020	10:30 AM - 10:45 AM (CT)
MON, Nov. 30, 2020	09:45 AM - 10:00 AM (CT)
TUES, Dec. 1, 2020	10:30 AM - 10:45 AM (CT)
WED, Dec. 2, 2020	09:45 AM - 10:00 AM (CT)
THUR, Dec. 3, 2020	10:30 AM - 10:45 AM (CT)

*Investigational use only.*
